

DD/M&S 1017-74

21 March 1974

MEMORANDUM FOR: Dr. [REDACTED], Chief, Psychological
Services Staff, Office of Medical Services

STAT

SUBJECT : Attitudinal Survey for M&S

First, I would like to express my appreciation for the session that you and [REDACTED] ran for us [REDACTED] I believe it hit the mark for the other people, but I know it certainly did for me. I would like to assert or utilize my prerogative of making some suggestions regarding what I would like to see from an M&S attitudinal survey, and these are:

STAT

1. the reaction to a single M Career Service as I announced at the State of M&S presentation;
2. the reaction to advisory groups--Agency, Directorate, and Office;
3. the reaction to the off-campus educational program that is offered by OTR and, subsidiary to that, an attempt to find out why there isn't greater subscription to this program;
4. what seems to be the hang-up on correspondence courses which are not very fully subscribed; is it lack of initiative, ambition, publication, or attractiveness;
5. the reaction to the State of M&S address and the potential annual repetition of this;
6. the reaction to the salary compression within the supergrade range of the GS schedule; and,
7. a catch-all, the Agency's image, the Agency's image with respect to Watergate, and Watergate as a general subject.

SUBJECT: Attitudinal Survey for M&S

I recognize that this is probably a fairly full platter. If you say "foul," that you can't cover all of these plus the desires of the Office Directors, I believe I can understand your problem.

/s/ Harold L. Brownman

HAROLD L. BROWNMEN
Deputy Director
for
Management and Services
